AI Automation Builder & GoHighLevel Expert.

I'm **John Carlo Caintic**, an **Automation Architect and AI System Builder** with **5+ years of experience** designing intelligent, scalable systems that connect AI, CRM platforms, data, and business operations. I turn fragmented tools and manual processes into reliable automation ecosystems that improve efficiency, customer experience, and growth.

ABOUT

Automation architecture, intelligent systems.

I design and build scalable automation systems that connect AI, CRM platforms, data, and business operations into one reliable ecosystem. I translate complex processes into intelligent workflows that help businesses capture leads, improve customer experiences, reduce manual work, and grow more efficiently.

As an **Automation Architect and AI System Builder**, I create solutions ranging from AI voice agents and chatbots to lead qualification, appointment booking, follow-up, customer nurturing, and operational workflows. Every system is structured around the business's goals, processes, and technology stack.

My experience includes **GoHighLevel**, **n8n**, **Make.com**, **Zapier**, APIs, webhooks, and AI platforms such as **Retell**, **VAPI**, and **Claude**. Whether I am building a single automation or an entire business infrastructure, my focus is always on creating adaptable, dependable, and scalable systems that deliver measurable results.

Automation Architect | AI System Builder | **GoHighLevel Expert** | AI Voice Agents | n8n / Make.com | CRM Architecture | API Integrations

Problem-solver

I design and optimize complex systems end to end.

Detail-oriented

Task-driven and focused on measurable goals.

Analytical

Interprets data to improve processes and UX.

Collaborative

Clear communication with clients and teams.

CAPABILITIES

What I bring to your stack.

A curated toolkit refined across five years of agency, real-estate, and SaaS engagements.

AI Chatbots & Agents

Conversational agents that qualify leads, book appointments, and handle Tier 1 support around the clock.

OpenAI · Claude · Vapi · ManyChat

AI Voice Agents

ElevenLabs-powered voice agents for lead qualification and follow-ups that sound human.

ElevenLabs · Vapi · Twilio

CRM & Funnels

Architect GoHighLevel sub-accounts, pipelines, automations and lead-scoring across multi-location teams.

GoHighLevel · HubSpot · BrokerKit

Workflow Automation

Connect 100+ apps with logic that scales, from booking flows to data sync to reporting.

n8n · Make.com · Zapier

Email & SMS Campaigns

Personalized, segmented campaigns with dynamic content that boosts engagement and repeat purchase.

Instantly.ai · GHL · Klaviyo

Paid Ads Management

Plan, launch and optimize Facebook, Instagram, Google, and YouTube ads with full-funnel tracking.

Meta Ads · Google Ads · Pixel + GA

Social & Content

Content systems across Facebook, Instagram, TikTok, LinkedIn, plus Reels, Shorts, and Canva pipelines.

Canva · CapCut · Adobe

Build with Claude Code

Workflows, dashboards, websites, AI agents, wireframes and SOP documentation, built fast.

Claude Code · HTML/CSS · Vercel

Data & Reporting

Custom dashboards, A/B testing, retargeting, and weekly reporting that drives the next decision.

Looker · Sheets · GHL Reports

WORK HISTORY

Five years. Five chapters.

From early-stage funnels to multi-location automation programs.

AI Automation Tech / Specialist

June 2024 to August 2026

DigitalflowU

- Developed and integrated AI chatbots that lifted customer support coverage and conversions.
- Implemented AI voice agents (ElevenLabs) for lead qualification and follow-ups.
- Set up and managed CRM systems like GoHighLevel to streamline communication and track pipelines.
- Created personalized email and SMS campaigns to boost engagement and repeat purchases.
- Planned, launched, and optimized Facebook and Instagram ad campaigns.
- Built advanced workflow automations using Make.com, Zapier, and n8n.
- Built workflows, dashboards, websites, AI agents, wireframes and SOP documentation using Claude Code.
- Designed and automated sales funnels guiding leads from awareness to purchase.

Marketing & Funnel Automation Specialist

August 2023 to June 2024

Realty One Group Lifestyle Homes

- Built and managed lead-capture funnels and landing pages in GoHighLevel for buyers, sellers, recruits.
- Automated CRM processes in BrokerKit with accurate segmentation, timely follow-ups, and lead-to-appointment lift.
- Workflow automations connecting GHL, Lofty, BrokerKit, Calendly, and AI chatbots.
- Content strategy: email campaigns, SMS nurtures, recruitment materials, monthly social calendars.
- Paid advertising across Facebook, Google, Instagram, and YouTube, optimized on CTR and conversion data.
- Lead reporting and dashboards delivered weekly for continuous improvement.
- Shopify e-commerce ops via Printify: listings, descriptions, and variations.

AI Automation Specialist

March 2022 to August 2023

Tackle Roofing Marketing

- Designed advanced GoHighLevel and Make.com workflows; rebuilt 30+ Zapier automations as scalable systems.
- Integrated AI agents and voice automation tools (Vapi) for inbound/outbound calls; debugged and improved bot logic.
- Audited and restructured GHL sub-accounts, eliminating duplicate workflows across multiple properties.
- Built custom dashboards visualizing live lead flow and performance, enforcing data hygiene.
- Owned Facebook Ads workflow setups, review collection automations, calendar integrations, geo-routing.
- Gravity Forms ↔ GHL connections, quote workflows, API integrations, form field mapping.
- Delivered daily, weekly, monthly analytics with actionable recommendations.

CRM / Digital Marketing Specialist

January 2022 to March 2022

Sierra Exclusive Industries

- Developed and executed social media strategies that grew brand awareness and engagement.
- Created and scheduled high-impact content across Facebook, Instagram, TikTok, LinkedIn.
- Designed marketing graphics and edited videos (Reels, Shorts, TikTok).
- Planned, launched, and optimized paid ads on Facebook and Instagram.

GoHighLevel & AI Automation Specialist

January 2021 to January 2022

Virtual Work World

- Set up SaaS platforms, websites, and high-converting landing pages designed to capture and qualify leads.
- Built advanced sales funnels and custom workflows in GHL: opt-in, tagging, follow-ups, nurturing, and booking.
- Created highly personalized email and SMS campaigns with dynamic content and segmentation.
- Integrated essential APIs to connect tools and systems seamlessly.
- Implemented Facebook Pixel, Google tracking, and GHL tracking to measure campaign performance.
- Audience segmentation by quiz responses, behavior, and engagement levels.
- A/B testing on funnels, emails, SMS flows, and ad creative.
- Retargeting and custom audiences to re-engage warm leads and reduce funnel drop-off.

FOUNDATIONS

Education & training.

Self-directed learning paired with formal study, and a habit of shipping.

EDUCATION

Father Saturnino Urios University — 2012 to 2016
Higher Education

Agusan National High School — 2006 to 2012
Secondary

TRAINING & PROGRAMS

- ✓ Automation Mastery
- ✓ UDEMY Courses
- ✓ Virtual Assistant Training
- ✓ Social Media Accelerator Program 2.0
- ✓ Google & Facebook Ads Training
